

# Programming Instructions

RC35 Keyless Entry Timed Relay

- Take cover off
- Keep in mind, RC35 can learn up to 5 codes.
- Connect the 2 pins together located inside the board.  
(A good contact is very important).
- Once connected, press big button, button one, remote hard and firm for about 1/2 sec., then let off of the connectors and reconnect. Then press big button for 1/2 sec. and release.
